At **Hamburg-Finkenwerder** we are currently looking for an

Aerospace Engineer (m/w/d)

as a

BFE Manager (f/m/d) in the Cabin Procurement team

Your profile:

- University degree in aerospace, aircraft construction, mechanical engineering or comparable technical degree
- Several years of experience in aerospace engineering and product development
- More than 3 years of experience in supply chain and supplier management
- Sound experience in Procurement and Project/Program Management
- 5-10 years experience within a Customer or Supplier facing environment
- Knowledge of standards like MS-Office
- Knowledge of Google Workspace
- Strong written and oral communication skills in German and English, French and Spanish as a plus.
- Team player with excellent communication, presentation & influencing skills
- Strong analytical and problem-solving skills
- Service and customer orientation with high sense of responsibility
- Self-reliant and systematic way of working

We offer:

- Pleasant working atmosphere in an international work environment
- Exciting development opportunities and perspectives in the aerospace sector
- High level of personal responsibility for tasks, deadlines and work results
- Full integration into the respective departments and specialized teams
- Regular professional qualification and further training
- Unlimited employment contract

- Payment above the collective wage agreement according to IG Metal and Equal Pay
- Continuous and comprehensive support from fixed contact persons close to the site
- Long-term assignment with development prospects at Germany's largest aviation company

We want to get to know you and look forward to receiving your application. We will forward your application quickly and accurately to the appropriate contact person.

The best thing is to send us your documents today! Thank You.

Tasks and responsibilities:

- Lead, drumbeat & secure the End-to-End BFE (Buyer Furnished Equipment) management process until delivery of the last aircraft of the version
- Secure customer choice of BFE Supplier/Products in line with Aircraft customization timeline
- Ensure the on-time and on-quality releases of the BFE lists to the Customer in line with aircraft deliveries needs
- Manage and secure the development and delivery of BFE cabin equipment selected by the Customer
- Identify and assess any risk potentially impacting the development, the supply or the quality of BFE products
- set up associated mitigation actions and monitor them, escalating as needed
- Monitor Supplier Performance
- Provide weekly reports on the BFE development projects
- Manage (or contribute to) value-adding projects or strategic initiatives to improve BFE Management
